

# Safety Razor

## Instruction manual

# Amazing that you are joining!

---

Thank you for purchasing the Bambooya  
Safety Razor!

We are very pleased that you are joining  
and dare to take a step towards a more  
sustainable lifestyle. In this way, together  
we ensure that we produce less waste and  
reduce our footprint.

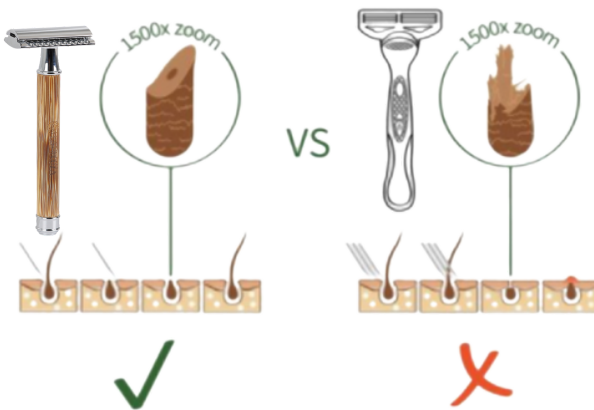

TOGETHER it is up to us to take care of  
OUR planet.

if you have any questions please feel free  
to reach out to us via [info@bambooya.org](mailto:info@bambooya.org)  
or via the chat on our Instagram:

# The benefits of a Safety Razor

---

Besides the fact that with the use of a Safety Razor you contribute to the reduction of plastic razor waste (>10,000 tons per year!), it is also cheaper than the cartridge systems and it gives you the best shaving result.

The use of a Safety Razor ensures a 'clean' cut, which means that you will have a lower risk of skin irritation and ingrown hair.

Besides, the blades are standard size, and for sale everywhere (drugstore, online stores, etc.)

# The usage

---

**Note: Only hold the blade on the short side.  
Avoid contact with the long sharp edges.**

The system consists of 3 parts.

To unscrew the head (A), hold the head (A, B) and unscrew part C counterclockwise.

## **Before usage:**

1. Make sure all parts are loose (A,B,C).
2. Carefully take the razor blade and place on part A. Grasp the blade on the **short** side.
3. Place part B on part A and the razor blade.  
Note that the 'ridges' are at the top.
4. Put and turn part C on part B. Make sure you turn part C and not the head.
5. Tighten well, the razor blade is then slightly bented.

# Tips and tricks

---

When it's your first time shaving with a Safety Razor, familiarise yourself with the blade by starting to shave on the easier areas (e.g. legs). As soon as you feel familiar, you can shave the more sensitive areas.

## Usage Tips:

- Make sure the skin area to be shaved is clean. Use warm/lukewarm water for this. Use **shaving foam**, this ensures less shaving resistance.
- Make sure you hold the Bambooya Safety Razor firmly.
- Hold the razor at an angle (**30 degrees**) so that the side of the blade touches your skin and pull the skin down with your other hand as well.

- You get the best result by moving the Bambooya Safety Razor with smooth, small movements in the **direction of the hair**. Make sure you clean the razor sufficiently and get rid of the hair residue during the shave.
- Finish shaving by rinsing the shaved area and then drying it (**pat dry, not wiping!**). Tip: use a lotion for moisturizing skin and an extra soft feeling.
- For long-term use of the Safet Razor, pat the Safety Razor **dry** and the blades (so you keep them sharp) dry. Store the Razor in a dry place.

# Thank you!

---

Thank you for your Bambooya purchase and step towards a (more) sustainable lifestyle.

We are very interested in feedback or ideas to improve our products. That is why we would really appreciate it if you would like to leave a review.

This can be done via Bol.com or via our website: [www.bambooya.org](http://www.bambooya.org). Ideas or other feedback can be sent via the contact form on our website or by sending an email to [info@bambooya.org](mailto:info@bambooya.org)
